

LABOUR MOBILITY

An applicant who is currently registered and in good standing with a statutory regulator of denturists in another jurisdiction in Canada in which the occupational standards and requirements of denturism are, in the opinion of the Registration Committee, substantially equivalent to those of Ontario, may be eligible for labour mobility.

If deemed eligible, such an applicant would be exempt from challenging the qualifying examination, provided they are a current member in good standing in another Canadian jurisdiction and meet all other registration requirements.
