

Preparing for the Standard of Practice: Record Keeping - Record Audit

The attached audit sheets provide a framework for denturists to complete an audit of their existing medical records and practices against the requirements outlined in the Standard of Practice: Record Keeping. The information obtained from your audit will identify those areas where your record keeping practices currently meet the Standard as well as highlight those areas where current practices can be modified to meet the Standard.

Conducting a Self-Audit:

- 1. Randomly select 10 patient records.
- 2. For each selected record, identify the presence or absence of items that are listed in the audit sheet.
- 3. Develop an action plan for modifying your record keeping processes that will provide for changes that bring your practices in line with the Standard.
- 4. To qualify for the 13 Continuing Professional Development credits associated with this exercise, submit a copy of this Audit Record along with your answers to the Self-Directed Learning questions that have been provided to you.
- 5. Submissions can be made to the College in any format: scanned electronic copy, fax, or mail.

<u>Preparing for Standard of Practice: Record Keeping - Effective January 1, 2017</u>

| Denturist: | Please indicate if the requirement has been met for each record. | | | | | | | | | | | | |
